

HEIDELBERG

AMPERFIED

Our quality standards. AMPERFIED GmbH.

Our customers expect quality. And so do we.

Our goal is to meet the expectations placed on us so that we can set standards for high-quality services and remain the partner of choice for our customers both now and in future.

Our customers want:

- To charge vehicles safely and conveniently using our products and services.
- To use intelligent energy management to save resources.
- To charge for the energy supplied using a simple, secure process.

Therefore we will:

- Introduce the necessary developments quickly.
- Provide advanced, integrated, safe, compatible and highly efficient solutions.
- Plan specific quality features for our products, implement the plans and ensure that they are followed.
- Reliably meet agreed deadlines.
- Offer expert advice in every situation.
- Ensure that the solutions we supply are permanently available.
- Constantly improve the effectiveness of our quality management system.

Our most important task is:

To continue developing ourselves, our suppliers, our work processes and, above all, our cooperation on all levels.

For our customers and for ourselves, choosing AMPERFIED always means choosing quality.

We are pleased to take responsibility for this.
